# SOLONS TO SHOALS

## GEOLOGIST PROVES STAUNCH FRIEND OF FORD'S SHOALS BID IN LOCAL ADDRESS

George Huntington Clark Speaks  
To Large Crowd At  
Exposition

PRaises Ford as Man  
FOR THE BIG ENTERPRISE

Contradicts Rumors That South  
Is Too Poor To Buy  
Fertilizers

The address of George Huntington Clark, assistant state geologist, was a chief feature of the industrial exhibition last night. Dr. Clark spoke from the platform in the north exhibit room, ground floor. He was introduced in a few remarks by James W. Paige.

In the outset Dr. Clark unloosed his intellectual machinery on the Muscle Shoals proposition, and proved to be a staunch advocate of Henry Ford as the only available man for the great enterprise.

He set at rest, in forceful language, the attempt of some writers to convince the public that the farmers of the South could not furnish a market for large supplies of fertilizer such as Ford will make at Muscle Shoals. He said there was a false propaganda going the rounds that the South was too poor to buy fertilizer for the cotton and tobacco lands—that the civil war had left us impotent, and the like. The speaker also showed the fallacy of those false prophets who are going about saying that there are not enough by-product fertilizer components available close to the Shoals to make it possible for Ford to make the finished fertilizer on a practical basis.

Object of Survey

Dr. Clark explained that the present objective of the state geological survey was to make a practical use of all scientific knowledge available, and writing learned essays amounted to little. He said that the department wants actual experiments. "If the farmers of this section would only do a little prospecting on their own account," said the speaker, "they could in some instances raise the mortgage in a few weeks. What I mean by prospecting, is for those who own property to go over and dig a little and then blast a little in order to see what kind of mineral ore is hidden away. Some years ago there was a practical effort made in Colbert county in this direction and it should be done in all parts of the state, especially at this time. In many instances where there are old openings in the earth, the air has destroyed the power of the chemicals in the soil, so that when my analysis appears it has to be condemnatory, whereas if the farmers would make an altogether new opening, it might develop that they have valuable mineral lands." The speaker urged the neighboring farmers to prospect for minerals on their lands by all means.

Cement Plant Here

Dr. Clark advocated the erection of a cement plant somewhere along the river in this community, to furnish material for finishing the whole outlay of dams at Muscle Shoals. Referring again to the near proximity of fertilizer products to Muscle Shoals, the speaker said that such material was nearer to the Shoals nitrate plant than to any other one of the existing fertilizer plants. The speaker denounced as untrue and misleading much of the propaganda being put out by the opponents of the Ford offer.

Mellon and Ford in Death Embrace

"It is known to some of you how Mr. Ford is fixed for aluminum. He says he is not using more than one hundredth part as much as he would like to, if the aluminum trust was not charging such high prices. As you know, Secretary Mellon is a main power in the aluminum trust. He is believed to be bitterly opposed to the Ford offer. Especially since Mr. Edison and Mr. Ford have about

## Mass Meeting To Draw a Big Crowd From Twin Cities

Committees were at work today in Albany-Decatur making preparations to send a big delegation to Montgomery to the state-wide mass meeting on March 1 when the offer of Henry Ford for Muscle Shoals will be endorsed.

Coincident with the work of the delegation committees, petitions signed by the city officials of Albany, Decatur and the officials of Morgan county were to be forwarded late today to members of the Alabama delegation in congress. The petition was signed by: E. C. Payne, mayor of Albany; H. O. Cline, president of the council; Henry Hartung, clerk; Tennis Tidwell, city attorney; J. H. Hendrix, chief of police; J. J. Waddell, T. B. Huddleston, S. E. Sutton, T. E. Williams, T. J. Wear, C. L. Buck, members of the council; J. M. Hill, county tax collector; Frank J. Davis, assistant tax collector; H. O. Troup, tax assessor; John M. Maxwell, deputy; J. L. Draper, clerk of circuit court; L. P. Troup, probate judge; J. H. Green, clerk probate court; James A. Nelson, mayor of Decatur; Clyde Hendrix, John A. Thomason, W. E. Roper, C. T. Royer and W. M. Bailey, members of the council of Decatur.

The petition follows:

"Hon. E. B. Almon, Washington, D. C.: We, the undersigned county officials of Morgan county and of the cities of Albany and Decatur respectfully urge the government to accept the offer of Henry Ford for Muscle Shoals, because we believe that it will be developed by him for the benefit of the American people. We protest against the acceptance of the offer of the Alabama Power company, because it would insure to it control of every large waterpower site in Alabama, and thereby fasten upon our people for all time a waterpower monopoly."

The petition is being circulated throughout the state and requests are being made that the officials of every county and city in Alabama sign the petitions and forward them to Washington immediately.

CITIZENS WILL GATHER

MONTGOMERY, Ala., Feb. 24.—(Special)—Citizens of Alabama who favor the acceptance of Henry Ford's offer for the development of Muscle

## REFERENDUM VOTE ON MINERS' STRIKE CALLED BY LEWIS

(International News Service)

CHICAGO, Feb. 24.—Formal call for a referendum vote of the coal miners of the nation on the question of a strike April 1 will be sent out today from the headquarters of the United Mine Workers of America, John L. Lewis, president, announced.

Each union local is expected to vote on the question by March 10. President Lewis predicted that the men will vote to strike if their demands are not granted.

Among these demands are a six hour day and a five day week in the coal industry and continuance of the present wage scale. The call for a strike vote ignores the request made by President Lewis for a conference with the operators in Cleveland, to discuss a new wage contract, indicating the heads of the miners union have abandoned hope of bringing about a conference with the operators.

MASONS MEET

There will be a convocation of Decatur Chapter R. A. M. Friday evening. The meeting will open at 7:30 o'clock.

Shoals will gather here in a state-wide mass meeting next Wednesday, March 1. A local mass meeting of citizens and voters of Montgomery called by the League of Women Voters assumed far greater proportions during the afternoon and tonight the announcement was made that the gathering will be state-wide, that every county will be requested to send official representatives and that addresses will be delivered by former Governor Emmet O'Neal and J. W. Worthington, one of Henry Ford's engineers.

The Montgomery mass meeting had been called for Sunday afternoon. When requests that other counties be permitted to participate were received the league decided to move up the date to Friday but information came during the afternoon that Mr. Worthington could come to Montgomery next Wednesday. Former Governor O'Neal advised that he would accept the invitation to attend.

The announcement of the mass meeting was telegraphed to every county Wednesday night. Farm bureaus were also requested to have representation here. Although no information was given out other than that the state meeting has been called for the purpose of expressing "the mind of the people of Alabama" individuals back of the movement insisted that something would be said in comparison of the offers of Henry Ford and the Alabama Power company and of the ultimate results to be obtained by the state through the development of Muscle Shoals by Mr. Ford.

H. A. Bradshaw, widely known citizen of Florence, was in Montgomery when the state-wide meeting was arranged.

EDITORS FAVORABLE

MONTGOMERY, Ala., Feb. 24.—(Special)—Henry Ford's offer for Muscle Shoals received the unqualified endorsement of the executive committee of the Alabama Press association in special session today. Resolutions were adopted urging congress to accept the proposal without great delay in order that the development of the potential waterpower on the Tennessee river may not be longer delayed. Information regarding the action of the committee was telegraphed to each

## Only Shot At Her Husband, Defense Of a Negro Woman

This doesn't happen to be the open season for shooting at husbands, a negro woman learned in the Decatur police court this week. The defendant was arraigned on charges of carrying a pistol and shooting in the corporate limits. She replied in answer to a query regarding her guilt "it was only her husband," she was shooting at. It cost her \$85 to learn that even wives are not exempted from the defensive statutes husbands have.

## G. O. P. DISCUSSING SALES TAX PLAN

(International News Service)

WASHINGTON, Feb. 24.—A sales tax plan, designed to raise the money necessary for a soldier bonus was laid before the full Republican membership of the house ways and means committee this afternoon by the tax sub-committee which has been wrestling with the problem for several days.

The plan is based on the Canadian manufacturer's system with specific commodities named and it is understood the rate of tax is to be about one per cent.

member of the Alabama delegation in congress and to the chairmen of the senate committee on agriculture and house committee on military affairs.

The executive committee selected May 10 and 11 as the dates for the annual convention of the association. Montgomery was selected for the first meeting place which will be May 10 and on May 11 the association will go to the Alabama Polytechnic Institute. If a session is necessary May 12 the association will decide where it will be held.

ENDORSE MEETING

MONTGOMERY, Ala., Feb. 24.—(Special)—Endorsements of the proposal for a state-wide mass meeting in Montgomery next Wednesday in the interest of Henry Ford's offer for Muscle Shoals were issued Thursday afternoon by H. F. Lee, state auditor, and John Purifoy, former secretary of state, who are candidates for membership on the public service commission. "I am heartily in favor of the acceptance of the Ford offer," said Mr. Lee. "It means much, in fact it means more to Alabama than any other industrial question that has been presented."

Opportunity is knocking at Alabama's door and the people of this state want congress to open the door and let Henry Ford in," said Mr. Purifoy. "Ford's possession of Muscle Shoals means a prevention of monopolistic control of the waterpower of Alabama and thereby a sure guarantee of protection to the people and industries of the state."

PEOPLE AROUSED

MONTGOMERY, Ala., Feb. 24.—(Special)—Declaring that "the people of Alabama are aroused as never before," Frank N. Julian, president of the Sheffield chamber of commerce, publisher of the Sheffield Standard and former president of the Alabama Press association, issued a statement today in which he said the state-wide mass meeting which will be held in Montgomery next Wednesday afternoon at 2:30 o'clock in the interest of the development of Muscle Shoals by Henry Ford will be "the most important gathering in the history of industrial development of the state."

## DEATH LIST CLIMBS IN WAKE OF STORM OVER NORTHWEST

(International News Service)

MINNEAPOLIS, Minn., Feb. 24.—The death toll from the storm that buried half a dozen states of the Northwest and completely isolated some sections for the past 72 hours, today was known to be at least nine and it is feared that when wire communication is restored, reports from other communities will bring the number to at least 15 dead and 50 injured.

Four of the known dead buried under snowdrifts and five were killed and 11 injured late yesterday afternoon when the Winnipeg flyer, bound for Minneapolis, and running hour behind its schedule, collided head-on with a rotary snow plow near Montrose, Minn., 30 miles west of here.

Seventy-five passengers who had been transferred from two other trains, stalled in the snow, were in the coaches of the flyer when the accident occurred. A majority were only slightly injured.

LONDON REVOLT

LONDON, Feb. 24.—There is a masculine war brewing in London. It is directed against the high stiff collar.

## COTTON GROWERS URGE ENACTMENT OF LEGISLATION TO AID THE INDUSTRY

Convention In New Orleans  
Takes Steps To Help Marketing Plans

UNIFORM WAREHOUSE  
LAWS ARE ENDORSED

State Aid Plan Also Sponsored  
By Conference Of Representatives

(International News Service)

NEW ORLEANS, Feb. 24.—The enactment of uniform cotton legislation and the solution of problems of production were discussed by delegates from 12 cotton growing states who organized the nucleus of the cotton states commission in the cotton exchange late yesterday and last night. The convention opened Thursday and will close today. Following a meeting held last night the marketing commission announced it had decided to recommend the following:

1.—That co-operative marketing be endorsed on the South's commodity plan.  
2.—That uniform marketing be endorsed on the basis of the present South-wide community plan.  
3.—That federal legislation tending to make money available to bonded warehouse certificates or their equivalent.

4.—That uniform warehouse laws for various states and the state aid plan be sponsored.

In the afternoon session the constitutionality of states banding together in an attempt to force any specific legislation was debated. Discussing this subject, Chairman R. O. Everett said: "I want to make it clear the understanding is sanctioned officially. The delegates were named by the governors of the state they represent. The movement is entirely legal."

## McDuffie Qualifies As A Candidate

MONTGOMERY, Ala., Feb. 24.—

Congressman John McDuffie, of the first Alabama district, formally qualified today as a candidate for re-election. He notified William P. Cobb, secretary of state, that he had named himself as the person to receive and disburse all funds which will be used in the promotion of his political interests.

W. B. Alexander, of Felix, member of the house of representatives from Perry county, informed Mr. Cobb that he had announced as a candidate for re-election.

Jack M. Pratt, of Carrollton, county solicitor for Pickens county, entered the race for solicitor of the seventeenth judicial circuit.

William M. Walker, of Birmingham, became a candidate for judgeship number one of the Jefferson circuit court.

MINUTE MOVIE OF MARY.

Downcast

Interest

A smile for the judge

"Our Mary" has been forced by the stern reality of a New York Federal Court to register some emotions outside of the movies. The accompanying poses of Mrs. "Doug" Fairbanks show the diminutive star as she appeared while contesting the suit of Mrs. Cora Carrington Wilkenning for \$108,000, alleged to be due as a commission for "placing" Mary under contract which called for a salary of \$1,000,000 per year. Things looked bad when Mary registered dejection in the first closeup. Interest in the case is registered in the second, and the third indicates hope and expectation.

## DRIVE CONTINUED IN ATTEMPT TO PROVE UP STORY OF FIELDS

(International News Service)

LOS ANGELES, Feb. 24.—The drive to determine whether a drug ring is responsible for the murder of William Desmond Taylor, started when Harry M. Fields, under arrest in Detroit, gave a highly circumstantial version of the slaying, took on fresh impetus today.

United States District Attorney Thomas Green turned over to District Attorney Woolwine a mass of data regarding the activities of the drug

## SENATORS TO MAKE OWN INSPECTION OF PROJECT; MONEY PROVIDED FOR TRIP

Resolution Adopted By Senate  
Provides For Visit To  
Alabama

POWER COMPANY'S  
POSITION DEFENDED

Thomas W. Martin Appears Before  
House Committee  
With a Statement

(International News Service)

WASHINGTON, Feb. 24.—A personal inspection of the Muscle Shoals power project by the senate agricultural committee was authorized by the senate today. Provision also was made for other senators, who desire to accompany the committee members to the power plant, subject to a limitation of \$2,000 for the total expense of the journey.

MARTIN DEFENSE

WASHINGTON, Feb. 24.—Criticism of the Alabama Power company for insistence that the government live up to its contract by permitting it and not Henry Ford to purchase Muscle Shoals was declared unjust today by Thomas W. Martin, president of the company.

Appearing before the house military committee Martin asserted the option giving the company right to purchase a part of the project was incorporated in the contract by demand of the government. He told the committee that the company intends to see that the optional purchase right is given it, even if it has to resort to the courts to force the government "to live up to its contract."

Martin's testimony this afternoon was designed to lay the groundwork for probable legal action which would have the effect of holding up governmental lease of Muscle Shoals to Ford should congress favor the Ford bid and turn down the rival offer of the Alabama Power company.

## Comer Pays \$100 Per Minute For A Talk To Students

One hundred dollars a minute was the price paid by ex-Governor Comer when he spoke to students of Auburn at the "Auburn Day" program there. During the speaking program, Governor Comer arose and asked to be permitted to make an address in favor of the drive for funds to build a greater Auburn.

Granted the privilege of the floor, he told his audience that he was willing to pay for the privilege of speaking at the rate of \$100 a minute. He spoke 50 minutes and immediately after concluding his address, he wrote his check for \$5,000 and presented it to the committee.

## Huie Has Taken Over Postoffice

L. E. Huie, the new postmaster for Albany, was checked in Thursday evening and Friday began signing his name officially on the documents of the office. All the efficient force who served under Mr. Alexander, the retiring postmaster, will remain in the service there.

SOME RECORD!

MONTGOMERY, Ala., Feb. 24.—

(Special)—Montgomery has gained a name during the winter as the birthplace of circus animals. Announcement was made today of the birth of a camel in winter quarters of Howe's shows at Camp Sheridan. A few days ago three white lions were born. A few days previous to that time another monkey came into the world.

## WE FAVOR ACCEPTANCE OF HENRY FORD'S BID FOR MUSCLE SHOALS.

### THE PUBLIC AWAKENED.

There is little doubt that the newspapers of Alabama as a unit are for Henry Ford as the owner and operator of the Muscle Shoals plant, against all comers. If the ear has been to the ground, and newspapers as well as individuals have been listening, all must be thoroughly satisfied as to the wishes of the people of Alabama, Tennessee, Georgia and many other southern and western states.

In most of our newspapers the most cordial support has been given to Ford without abusing others, which is the rational and conservative position to take and after all the most effective. As it appears to The Daily, if our office holders, high or low, fail to measure up fully to the wishes of their constituents at the final end, back to private life it means for them. Candidates and prospective candidates if they hope to realize their ambitions had best make known where they stand—for or against Ford—if they would come under the wire winners. The voters are in no humor to be fooled and camouflaged in the Muscle Shoals matter. The people will have a square deal in this case and if those in Washington fail to deliver, their chances for the fireside and home are better than it ever has been in their lives.

### EDISON'S CHALLENGE.

Thomas Edison has issued another questionaire.

This time it is directed to the bankers, economists and students of fiscal problems.

The college boy is given a rest, while the financiers are asked to disprove the theory of Henry Ford and Mr. Edison that the natural resources of the country offer as sound a basis for currency as does gold.

His first question is: "What, in your opinion, would be the approximate market value of a troy ounce of pure gold if all the governments of the world should demonetize it?"

He then follows with such questions as to why currency, based upon 50 per cent of the value of necessary commodities in Government warehouses, would not be sound money, and why equity in the warehouse and the goods in storage could not be discounted at commercial banks.

He also asks: "Must we always remain on a gold basis? Is it beyond the wit of man to devise any equivalent method?"

Mr. Edison probably will receive many replies to his questions, but so far we have seen but one, from George E. Roberts, vice-president of the National City Bank of New York:

A government cannot produce wealth by any different processes than individuals. It cannot create something out of nothing. Neither Mr. Edison nor Mr. Ford sees any use for gold as money. The former says that what is wanted is "a unit of energy" as the standard of value. If a currency note were printed to represent "one unit of energy," nobody would know what it was meant to be worth. Even a note which purports to be worth "one dollar" would have no definite meaning until the word "dollar" was defined. The dollar gets its meaning from the fact that it contains 22.23 grains of gold.

Opinions as to the approximate market value of pure gold will vary. It will be worth just what it will bring in a free market. It may bring a bushel of wheat or twenty bushels of wheat, according to the supply and the demand, and it may bring one shoe or a pair of shoes, according to whether the shoe dealer has any use for the gold.

Currency is issued today against goods in storage, crops on the farm and merchandise in course of manufacture. Federal Reserve banks issue currency against the approved value of these goods represented by notes which are discounted at the banks, but back of it is the gold standard of values. There must be some standard, whether it be gold, silver, or wheat or what not.

Currency is not wealth. It merely represents wealth. A man cannot carry a hundred bushels around on his back to swap it here and there for what he wants, but he can carry a hundred dollars or a bank book showing that much to his credit.

Currency is a convenience demanded by modern

merchandising methods.

The scheme to depose gold in favor of energy may be theoretically sound, but there also are sound reasons for its rejection. If gold is demonetized and energy monetized, the question immediately suggests itself: What constitutes energy? When that question is answered, then we may very well approach the task of applying a value to each and every form of energy, and when you can satisfy every man who labors as to the value that the Government will stamp his labor with, then the millenium will be reached.

Energy is measured now in terms of gold, but attempt the reverse and see where it leads to.—Nashville Tennessean.

The old spinning wheel with its whirring sound. As the twisted band carried the wheel around.

That's as far as we can go with the rhyme, but, to those who have seen the performances of this relic of grand-mother's days, are carried back to the time when it was the custom to spin wool and cotton thread with which to knit socks and stockings as they were then called. The cotton and wool cards were the first stages the wool and cotton went through before the spinning wheel was called on. The rolls thus carded were then taken up one at a time, and usually after supper was the time the spinning took place.

Children were sung to sleep by the soothing sound of the old spinning wheel, as mothers of the days long ago would make this provision for the socks and stockings of the family.

An old spinning wheel exhibited at the Tennessee Valley Industrial Exposition called to mind the time when simplicity marked the effort of the citizenship in the effort to supply the necessary things that were needed. They served their day well. The product made was of the best. Nobody ever thought of feet being encased in silk, but, we are evolving, either for the better or worse.

Much has been written and said pro and con about the award of Muscle Shoals. With all that has been said against the Ford offer, not one word has been offered or suggested of a better nature, or that held more hope, or gave more encouragement to those who need it, and held promise of a development of this the PEOPLE'S PROPERTY on a better, broader or more liberal plan than at first suggested and bid by the inventive, never tiring man of vision, Henry Ford of Detroit, Mich.

Every time the wheel of fortune goes round, some advance and some go down.

It takes a whole lot of love and charity to keep from getting awful angry when you go into your garden and see an old hen industriously scratching up what you have just planted. We say it does.

The time to fight the wolf is before the wolf gets you. After the wolf takes hold of the sheep and gets him in his grasp it is too late to raise a great alarm.

The people are long suffering and forbearing. Once thoroughly aroused over any subject there is terrible power in the uncoil of public opinion.

In the great sum total of a human life the great idea is not what we intended to do, but, how much of it we actually did; how many of the good ideas we actually put into practice.

The realm of the human mind is boundless; in an instant it can rise to the highest heights possible of attainment, and in the same moment descend to the lowest depths.

That others might have a better chance is the spirit with which those who live and labor today should be possessed. But, is it?

They who can entertain in public performances are filling their niche in the plan that all contribute something. Many have gone to entertainments feeling "all in," and by the quality and variety of the entertainment afforded they have forgotten this feeling because of the humorous side of the entertainment.

That variety is the spice of life, may be responsible for, and the idea of the makers of wearing fabrics in producing so many variegated colors.

We are all weavers on the loom of life. In youth's golden hours we weave pictures of pleasure and anticipation giving to them all the gay coloring at our command. In the more maturer years we weave with gold and silver threads the fabric upon which we feast in after life and which is always a great source of companionship.

Whom the gods would destroy, they first make mad and cause them to say something they wish so very much they had not.

Poverty is no barrier to excellence, but it sometimes proves a barrier over which the less positively inclined stumble and falter in attaining the things which they seek. Numerous instances are recorded where individuals have surmounted seemingly impossible handicaps, and succeeded in leaving to others the positive proof that it can be done.

The splendor of the morn is enhanced and made beautiful by the contrast of the beautiful effects of twilight.

Edgar Allan Moss.

### SAD BUT TRUE

Beneath this stone lies Nick Murray, Who always drove in a helluva hurry; Once too oft he turned on speed— That's why this record now you read.

If Dr. Work, Will Hays?

"Oh, my," she exclaimed impatiently. "We'll be sure to miss the first act. We've been waiting a good many minutes for that mother of mine."

"Hours, I should say," he replied. "Ours!" she cried joyfully. "Oh, Jack, what a neat way to propose."

### Not Thanksgiving

"Tomorrow is turkey day." "How's that?" "It's pay day and the boss will put, put, put, put."

Admiral Kato, of Japan, who was attending the conference at Washington, says American short skirts are shocking.

Somebody should tell the admiral that he was sent to discuss arms, not legs.

"Is your daughter prominent in the girls' club?"

"She's chairman of the committee on face powder."

I saw a girl walking down the street. She wore galoshes on her feet. The day was cold, her legs almost bare. But that's the style—what did she care

Creditors have better memories than debtors.

### The Galosh Code

A code whereby a flirtation may be carried on with the galoshes worn by girls has been devised and Twin City girls and fellows are getting next to it, a stenographer informs the Office Cat.

When a girl wears her galoshes entirely open so that the tops flop about her calves, it signifies in flirtation galosh language: "I am free and open for engagements."

When she wears them buckled it means: "I am engaged but may see you later."

When they are worn with the lower buckles closed and the upper buckles open, the meaning is: "I am in doubt. Don't know you, but willing to make your acquaintance. Follow me."

One galosh buckled and the other unbuckled, it means: "I am engaged and my future husband is very jealous."

There is said to be more of it, but the above are the leading signals of the code.

We noticed a Ford radiator sunning itself in front of a hardware store yesterday. Another sign of an early spring.

We don't blame Ziegfeld for giving it up. As a producer of follies congress has him backed completely off the boards.

## Prosperity Coming

Wizards of business and captains of industry who are students of the cycles of prosperity tell us that experience, history and all indications point to the fact that the "curve of prosperity" is starting upward again. (See article by President Dennison in the March American Magazine). Roger W. Babson, the great statistician, tells us however that industrial prosperity is always accompanied by religious depression. Now is the time then for all people to enlist in the most worth while service.

Live topics which affect the life that now is and that which is to be are discussed at The Decatur Baptist Church each Lord's day. All welcomed to a homelike church.

Delinquent Public Improvement Assessments for Streets, Walks and Sewers. All property owners are hereby warned that payment must be made at once. List is being made up for advertisement and sale of such property.

E. C. PAYNE, Mayor  
H. HARTUNG, Clerk  
Advertisement.

Didn't Throw His All at Her Feet

"Poor old maid—has she ever had a proposal, I wonder?" "No—the nearest she ever came to is when she went into a shoe shop, made the shoemaker angry and he threw his awl at her feet."

Failing in his avowed purpose of purchasing the entire French navy, Mr. Ford might try his luck on the Swiss navy by way of consolation.

### Wheeze

I cough, I sneeze,  
I snort, I wheeze,  
I'm in a perfect frenzy.  
My head is dough,  
My nose won't go,  
I've got the influenza.

If it is true that there are no cuss words in the Japanese language, how do the Japs start a Lizzie on a cold morning.

When you see silk-clad ankles in winter weather, you wonder whether she is trying to catch a husband or pneumonia.

Dr. Work is going to succeed Will Hays as head of the postoffice department. How did he get the job? Work and political jobs are generally strangers.

A good many women have said, "Oh this is so sudden," when what they thought was, "Well, it's about time."

What chance would Sir Walter Raleigh have these days with everybody wearing galoshes?

The banks are now doing almost as much advertising as the cigarette manufacturers.

Health Hint—Don't laugh at your wife when she cries.

## IN MEMORIAM

At a recent meeting of St. John's Guild, a committee was appointed to express their high regard for one of their faithful members, who had been called from our midst, Mrs. Emory Hinsdale, who entered into life eternal in the early morn of February 16, 1922.

Beloved Aunt of Mrs. Eugene Graves. A devout member of St. John's Church from its organization in New Decatur (Albany), also of St. John's Guild, ready and willing to la-

bor, to contribute at all times and under all circumstances.

A lovable cultured woman, a steadfast friend. Most kind in sorrow and sickness. She will be sadly missed by those who knew her. She was laid to rest by all that loving hearts would offer. Amidst lovely flowers and the service of the church she loved so well, with "The Comfortable Words."

"Blessed are the dead who die in good."

Mrs. H. B. Beard, Mrs. W. A. Bibb, Miss M. E. Hoff, committee.

## Men's Christian Council

Meets Sunday, Feb. 6, at 2:30 P. M. in  
the East Town Baptist Church

Rev. L. F. Goodwin will be the speaker—

## Delivers Your New HOOSIER During this Club Plan Sale

Take advantage of our easy Club Terms. Get a New Hoosier, the greatest of all kitchen conveniences. It will do more to save time and steps, and to cut out needless work and worry than anything else you could buy or build.

Our special Club Terms and other inducements make it worth your while to

## Get Your Hoosier Now

The New Hoosier does away with the fatigue which comes from working at a table which is too high or too low.

This is only one of many splendid new improvements. Come in and let us demonstrate them all.

For instance, we give you with your New Hoosier, at no extra cost whatsoever, the complete ten-piece set of domestic science kitchen tools. These tools are so superior to ordinary kitchen cutlery that they have been highly endorsed by eminent domestic science authorities, including Miss Alice Bradley, Mrs. Christine Frederick and Good Housekeeping Institute.

We also give you the greatest assortment of crystal glass food and spice containers ever included with any kitchen cabinet—fourteen handsome aluminum-topped glass pieces in all.

You owe it to yourself to see the many great improvements which make the New Hoosier the greatest of all kitchen conveniences.

## SALE OF BUSINESS LOTS

Under and by virtue of mortgage deed executed by E. J. Childers and wife, Lela Childers, to the undersigned, which mortgage deed is recorded in mortgage record number 250, page 41 office Judge of Probate, Morgan county, Alabama, I will on 16th day of March at 2 o'clock p. m., 1922, sell to the highest bidder for cash in front of the Morgan county court house, at public sale, the following described lots or parcels of land lying in Morgan county, Ala., to-wit: Lots A B and C in Block 291. Also lots F and J, Block 298 of Decatur Mineral and Land Co. Addition to Decatur, Ala., in Section 18, Township 5, Range 4 West.

Said sale will be made for the satisfaction of said mortgage deed. Said Childers having defaulted in payment of last two notes secured by said mortgage deed, said sale will be free from exemption.

This 16th day of February, 1922.  
O. G. GRAYSON,  
Trustee under said mortgage deed and owner and holder of all of notes secured by same.  
John B. Wilkes, Atty. f17-24-m3

## NOTICE OF ANNUAL MEETING

Of Stockholders of the Alabama Water Company  
Notice is hereby given that the regular annual meeting of the stockholders of the Alabama Water Company will be held in the office of the company in Albany, (formerly New Decatur) Alabama, on Wednesday, March 15, 1922, at 11 o'clock a. m.; at which time the company will elect the Board of Directors and transact such other business as may properly come before the regular annual meeting of stockholders of a corporation in Alabama.

JNO. B. WEAKLEY, President.  
EUGENE FIES, Secretary.  
f10, 17, 24, m3

## Drive Continued In Attempt To Prove Up Story of Fields

(Continued From Page 1.)

ring at Hollywood studio. This data was given Green several months ago by Taylor, who sought his aid in fighting the ring.

Green confirmed the report that Taylor twice visited him, the occasion being about three weeks apart. Taylor, he gathered, was heart and soul in the fight against the drug traffickers. The aim of the director was to have from their clutches a woman he is said to have loved.

Although doubt has been thrown on Fields' story in some particulars, some corroboration has been obtained. In his story received here, Fields said he went to Buffalo by way of Seattle and if this is true, officers believe it would have been impossible for him to have left here February 2 and arrived in Buffalo the sixth by way of that route.

On the other hand they have found a bank clerk who recalls changing a \$1,000 bill for a stranger who appeared nervous and acted suspiciously. Authorities are wondering if Fields obtained his information through the mysterious underground channels of the drug world and although he was not here and the actual driver of the death car, as claimed, has the general outline of the murder story in fact and not fancy.

## Mrs. Mary White Called By Death

After a lingering and painful illness extending over a long period, Mrs. Mary White, died at 12:15 o'clock Thursday evening, at the home of her daughter, Mrs. J. H. Morgan, at 715 Commercial Avenue.

She is survived by one son and two daughters: B. L. White, Mrs. J. H. Morgan and Miss Willie May White.

Funeral services will be held from the home of her daughter, Mrs. J. H. Morgan, Saturday at 10 o'clock, being conducted by Rev. R. F. Stucky, assisted by other pastors of the city. Interment, city cemetery.

## Victims Bodies Are Enroute To Homes

(International News Service)  
NEWPORT NEWS, Va., Feb. 24—The bodies of eight victims of the Roma disaster were enroute to their homes today. Ten more began their last long journey this morning, while at dusk tonight four will leave for Washington to be interred among the nation's war dead in Arlington cemetery at a great public funeral.

All the dead, it was stated, will be enroute to their homes before noon tomorrow. The body of Sergeant Thomas A. Yarbrough will be sent to his former home in Selma tomorrow.

## DISCOVERS MIXTURE TO START FROZEN ENGINES

(International News Service)  
EDMONTON, Alta., Feb. 24—Prof. Charles A. Robb, of the University of Alberta, it is announced, has discovered an ether mixture which solves the problem of starting motor engines in intensely cold weather.

Opportunity for a final test of the preparation came during a recent cold spell, when the mercury fell far below zero. A Liberty-12 motor of 400 horsepower was left outdoors all night and was immovably frozen by morning. The actual time taken to start the engine with the new mixture was seven minutes. When the experiments were begun last year it took an hour and a half to start the same engine, with the mercury only five degrees below.

## MOTHER GAVE IT

ginia Lady Suffered With Aches and Pains Until Mother Began Giving Her Cardui.

Dublin, Va.—Miss Mary Alice Hughett residing on Route 2, near here, recently told a visitor of her interesting experiences with Cardui. Miss Hughett said: "I had been suffering for some time with painful . . . I was pale, didn't feel like going. Would just drag around, and couldn't rest to do any good. I would suffer once a month with my back, sides and head. My limbs would ache and I didn't know what to do, but I knew I must do something, for I didn't get well by letting it run on."

"My mother is a believer in Cardui, for she saw what it did for others as well as herself, so she began giving it to me."

"It wasn't long before I saw a change. It was just what I needed. It regulated me. I began to eat and sleep, and the pain stopped."

"Cardui is without doubt the best female tonic made, and I am glad I can recommend it to others."

If suffering with symptoms such as Miss Hughett mentions, or other ailments peculiar to women, why not begin Cardui at once? Its merit is well established by successful use for more than 40 years.

Try Cardui!  
Your druggist sells it. NO-133

## Morgan's Voting Strength Larger Than Is Indicated

Tax officials today called attention to the fact that Morgan County's voting strength is larger than was indicated by a story published in The Daily several days ago.

They pointed out that the figures contained in the story gave only the totals of those who have paid poll taxes this year, but that in addition, there is a large number of voters who are exempted from the payment of poll taxes because of age limits and by military service. The total vote, including those exempted from poll payments, will reach between five and six thousand, it was declared.

## COURT TO MEET

A session of the Morgan county court, it is understood, will be held early in March. At this time the civil and criminal dockets will be heard. The term will be called March 6 or 13, presiding Judge W. T. Lowe not having yet decided the exact date.

## Eight Building Permits Issued

Eight building permits were issued by City Clerk Henry Hartung during the last three days, aggregating \$14,000.00. Most of these were for new residences and repairs to be made, practically all of them being in South Albany.

The month is making a much better showing than the same month last year, and augurs that when spring weather arrives there will be a general awakening in the building line in both cities.

## Tonight EXPOSITION

## A Southern Institution

The business activities of the Standard Oil Company (Kentucky) are confined to the South. The Company has progressed with the marvelous growth of the South and is today a vital part of the business and economic life of its people.

The following data gives some idea of the operations of the Standard Oil Company (Kentucky) in the State of Alabama:

It operates 125 tank stations and service stations.

The Company pays in salaries and commissions to its representatives in the State of Alabama over \$500,000.00 per year.

Under the various City, State and County License, Tax and Inspection laws, it pays approximately \$135,000.00 per year.

The cooperation, loyalty and efficiency of the Company's employes have contributed largely to the building up and maintaining of its State-wide service to the public.

The Company hopes to merit the public's continued patronage based upon the superior quality of its products, its efficient organization and its service station and tank station system throughout the State.

### "THE SUNSHINES"

Miss Flossie Griffin entertained "The Sunshines" at her home at a Washington's party. Games were played indoors and on the lawn until 5:30 when prizes were presented to Ben Holmes and Bernice Himes, followed by the refreshments and a shower of rainbow balloons which were souvenirs of an enjoyable afternoon.

W. M. U.

The Women's Missionary Union of the Central Baptist church met this week with Mrs. J. P. Matlock assisted by Mrs. Ernest Walker and Mrs. Brannum. Mrs. Seneca Burr had charge of the program and it was carried out in an interesting manner.

After the program and business sessions, delightful refreshments were served by the hostesses.

Judge James E. Horton, Jr., of Athens, was in the Twin Cities yesterday. Judge Horton is a candidate for one of the judgeships of the eighth judicial circuit.

N. B. CLUB.

The members of the N. B. Club supplemented by Mrs. Roger Garner were entertained by Mrs. T. M. Jones, Jr., Thursday night at her home on East Vine Street. Mrs. Bloodworth was presented the club prize, a deck of cards.

Nuts were served during the evening and late, a charlotte rouse course was served.

Mr. and Mrs. W. D. Shelton will take rooms with Mr. and Mrs. Guschke.

Mrs. Callie Solomon of Kelso, Tenn., is visiting her son, Claude Solomon.

Mrs. W. B. Edmundson left at noon today for Florence, where by invitation she will address the League of Women Voters.

Mr. and Mrs. Herbert Holland, of Canton, Ohio, announce the birth of a son.

Mr. and Mrs. Edgar Walker have returned to their home in Birmingham, Ala., after a visit to Mr. and Mrs. Henry Walker.

Mr. and Mrs. Henry Walker and son, Thomas, have returned from Shelbyville, Tenn., where they attended the funeral of Mrs. Walker's mother.

Friends of Mrs. George Hartung will regret to learn of her illness at her home on 6th avenue South.

Mrs. R. L. Sherrill, of Hartselle, is spending the day with Mr. and Mrs. Grady Sherrill.

Mr. and Mrs. D. W. McGlathery, of Falkville, will be the week-end guests of Mr. and Mrs. D. D. Srygley.

Mrs. C. J. O'Brien and Mrs. Jim Vannarsdale are spending the week-end in Montgomery.

### THURSDAY CLUB.

Mrs. Garner Fride was hostess yesterday afternoon to the Thursday club. Only club members were present, among whom Mrs. Harry Carpenter was the lucky contestant at the game of bridge and received a box of face powder.

Delicious fruit salad and sandwiches were served by the hostess assisted by her sister, Miss Nona Morrow.

Mr. and Mrs. Wilmer Hall, of Florence, arrived today to be the guests of their parents, Mr. and Mrs. W. N. Hall, for the week-end.

Mrs. B. M. Brown will return from Birmingham Saturday where she visited relatives for the past two weeks.

Mrs. T. E. Sandusky is ill at her home in South Albany.

Mrs. Cleve Frazier is confined to bed with illness at her home on Sixth Avenue, South.

Mr. and Mrs. G. C. Stubblefield and family have moved to Albany to make it their home. They lived formerly in Fayetteville.

Mr. and Mrs. H. E. Guschke will move next week to the new bungalow on Sixth Avenue, West.

Little Carolyn Mainard, daughter of Mr. and Mrs. Will Mainard, is suffering with tonsillitis.

Mrs. Lepperd is able to be brought home after a two weeks illness at the Benevolent Hospital.

Mrs. Will Hollingsworth, of Huntsville, was called here on account of the death of her sister, Mrs. J. A. Parker.

### YANK TOURIST CROWDS EXPECTED IN BRITAIN

(International News Service)  
LONDON, Feb. 24—"The Americans are coming!"

These words thrilled England in 1917, and the same words are thrilling England in the later winter months of 1922.

In 1917 it was the American dough boy invasion that gave cheer to Britain. In 1922 it is the American tourist who is causing elation.

Shipping companies, hotels, tourist agencies and all of those who cater to the curiosity of traveling Americans are planning for a big summer. The shipping companies have passed the tip that advance bookings are heavy and that the American tourist trade this summer will be the heaviest since the pre-war days.

### CERTIFICATE ISSUED

MONTGOMERY, Ala., Feb. 24—(Special)—The importance of the bureau of vital and mortuary statistics was demonstrated by Dr. H. G. Perry, registrar, today when he issued a certificate showing the death of Martin Nelson, step-father of Sam Douglas, an ex-service man. The certificate which could be issued because of the maintenance of the record of deaths in the health department will enable Douglas's mother to collect the war risk insurance which had been carried by Douglas.

Sixty-five certificates showing births or deaths have been issued by the bureau since January 1.

### Getting Rid Of A Stubborn Cough Is

Childs Play Now

Make the Medicine Yourself at Home.

It's Cheap—but You Can't Beat It.

If you want to take care of that bad, hang-on cough and do it in a few hours, better get one ounce of Parment (double strength) and mix a half pint at home.

You can do this in two minutes by adding a little sugar and enough water to fill a half pint bottle.

You'll travel the world over before you get a medicine that will act so surely and quickly on the mucus membrane of the nose and throat. It halts the inflammation, the tickling sensation stops with the first spoonful, the heavy breathing goes and clean membranes, free from irritation and mucus, follow.

For catarrhal conditions, such as mucus droppings, closed nostrils and watery eyes, it won't disappoint—ask for Parment (double strength). Speak plainly so that the druggist will know exactly what you want—Advertisement.

## PERSONALS

Oscar Rowe, of Kelso, Tenn., is visiting Mr. and Mrs. G. L. Solomon of Albany.

Malone Hagan, of Athens, is in the Twin Cities today.

R. W. Cowart, after a good night, is much better today.

Lloyd Love, of Sheffield, was here yesterday.

L. O. Ball, of Akron, Ohio, is the guest of friends here.

Harriett Lide, infant daughter of Mr. and Mrs. Frank Lide, is ill at the home of her parents on Cain street with pneumonia.

R. S. McJilton has returned from Birmingham where he spent several days this week.

Albert Frahn and Bill Hardage spent Wednesday in Montgomery.

M. B. Gunn, assistant superintendent of the Standard Oil company of Birmingham, is in the Twin Cities today.

Clarence Foy is in Moulton on business.

Charles Hatchett is in Columbia, Tenn. today on business.

Dr. D. W. Day of Hartselle is in the city taking in the exposition and attending to business matters. Dr. Day has for a long time been interested in the development of the natural resources of the county, and has perhaps done as much as any one man in keeping it before the public.

### TROOP RECOGNIZED

MONTGOMERY, Ala., Feb. 24—(Special)—Federal recognition has been extended by the war department to Troop B, 155th machine gun squadron, of Andalusia. This information was received by the state military department and means the completion of the squadron, recognition having already been extended to the troops at Greenville and Evergreen.

## Tonight EXPOSITION

## HERE ARE RESOLUTIONS PASSED BY MASS MEETING IN FLORENCE

### Alabama Power Company Warmly Attacked At Get-Together Meeting Of The Chamber of Commerce

The Daily has received so many inquiries regarding the now famous set of resolutions adopted Monday night by the Florence chamber of commerce, it has decided to publish the gist of the resolutions. They follow:

"1—That the Alabama Power company, doing business in this state, is owned principally by a foreign corporation with its official domicile in Canada, (see official report of Graham investigating committee), that the majority of its stock is owned in Canada and England, and the policy of the company is therefore necessarily alien.

"2—The only streams of Alabama offering opportunity for power developments of considerable proportions are the Coosa, Tallapoosa and Little rivers and the Tennessee river at Muscle Shoals.

"3—That the Alabama Power company has bought up the entire water power sites and rights in perpetuity on the first three of these rivers, namely, the Coosa, Tallapoosa and Little rivers, and has entered upon a program of development by them-

selves, and the prevention of all development by others, generally estimated to cover a period of 100 years. Although they have now been operating in Alabama almost 20 years, they have completed only one unit in this program, and activities already displayed give no promise of completing, within the 100 years, the developments already prompted by them. It is therefore evident that their purpose in bidding for Muscle Shoals cannot be based upon a desire either for opportunity for their own expansion or to faithfully serve the public, but their purpose must be found in their desire to entrench themselves and fasten upon the people of Alabama and surrounding states for all time the blight of their complete and oppressive monopoly. By inference they plead loudly against a 100-year lease to Henry Ford, but they propose to yield nothing of the strangle hold which they have acquired in perpetuity on every important power site in Alabama except Muscle Shoals. In their activities, instead of developing navigation conjointly with power, their development prevents navigation in any continuous form. Their record is that they have procured municipal franchises for light and power wherever possible and retail current at exorbitant retail rates. They have not fostered or developed industry at any point they serve and their reputation in the state is in line with the findings of the Graham congressional investigating committee in reference to their unpatriotic dealings with the government during and following the war.

"For the foregoing reasons we conclude that should congress accept any proposal from the Alabama Power company that would give them control over Muscle Shoals, it could only result in delaying developments in all other streams in Alabama over which they have already obtained control in perpetuity, or delaying development of Muscle Shoals.

"6—Alabama Power company has no experience in, nor plans for any activity outside of development and transmission of power, and therefore could not be expected to finance or develop power faster than development of industry by others would create demand for power.

"7—Being a corporation owned by aliens, the citizens of the United States could not entrust their security and preparedness as a nation to the mercies of its policy makers who are men whose allegiance is sworn to other countries.

"8—On the other hand, Mr. Henry Ford has formulated a mammoth plan of industrial development that grips the imagination and thrills the enthusiasm of every American citizen, and seeks power for its operation. He is to the manor born. He is regarded as fair in all his dealings. American citizens, wherever located, have confidence that he can and will succeed in the construction and operation of a great industrial section in such manner as to not only give employment to thousands now unemployed, but also to awaken new and inspiring ideals in industrial life. He came promptly upon invitation of his government and not at the last hour and made a reasonable proposal to immediately develop all the power at Muscle Shoals, not part of it, and to immediately make navigable the river for the benefit of up-river cities as Albany-Decatur, Guntersville, Chattanooga and Knoxville. He also proposes to overhold the plants processes and personnel subject to the immediate call of the government in case of war and to operate to full capacity for the benefit of the farmers in times of peace.

"9—While legislation and court rulings in every quarter have conceded to railroads, banks, in fact all forms of business, and to organized labor, the right to a reasonable profit or to a reasonable wage, only Mr. Ford in his proposal for Muscle Shoals, has offered one ameliorating item to the said condition of the American farmer, to whom we must all look for both food and raiment."

## Geologist Proves Staunch Friend

(Continued from page 1)

found a process whereby they can extract enough aluminum from low grade aluminum ore to make it cheap enough to use in large quantities. Already the trust has bought up the high grade aluminum ore lands in this state and Tennessee, but this section is rich in the cruder ore, and since Ford is about to make use of it, with the aid of Edison, he is encountering great opposition from the trust people.

Dr. Clark referred to the speech of President Mapother, of the Louisville and Nashville railroad, favoring Ford for the Shoals, and said that Ford proposed to run an electric railroad into the aluminum mines toward Birmingham, and that he believed this consideration was one reason why the efforts were being made to cripple such a plan by attempting to defeat Ford's bid, and that Ford was conceding for them as they were needed in his plan for getting in touch with the mineral lands and the by-products from the great steel plants at Birmingham, said by-products to be used in completing the formula for commercial fertilizer, after the nitrates were provided at Muscle Shoals. Dr. Clark showed where there would be ample power derived from Muscle Shoals to drive the machinery of many hundreds of manufacturing plants throughout the country.

## Falkville Folks Vote In Favor Of Henry Ford Offer

Falkville folks are overwhelmingly in favor of acceptance of Henry Ford's offer to take over Muscle Shoals.

Wednesday the people of that city, 18 miles from here, had a celebration in memory of George Washington, approximately 1,500 people attending. The merchants of Falkville and Lacon gave away an automobile and other entertainment features were provided. Judge W. T. Lowe, of the Morgan county court, delivered an address and following the speech the assembled crowd called for a vote on the offer of Henry Ford and the Alabama Power company to take over Muscle Shoals.

According to messages received here the vote was "almost unanimous" in favor of acceptance of the Ford bid.

## Is Holding His Own

"Ten years ago I received such wonderful help from your medicine for my stomach trouble that I have recommended it to hundreds of other sufferers. Recently a friend of mine whose brother in a distant city was stricken with acute indigestion and was not expected to live, got his brother to take a bottle on my advice. I have just received word that his brother was holding his own, and I am confident that Mayr's Wonderful Remedy will entirely restore him." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.—Advertisement.

## COTTON MARKET SUFFERS PRESSURE

(International News Service) NEW YORK, Feb. 24.—Spot houses and trade interests were the best buyers of cotton at the opening today, first prices declining 4 to 5 points, never-the-less, because of Wall street and wire house selling and a continuation of local unloading, which was a feature near the close yesterday.

## Board of Registrars Complete Task

The county registrars finish their itinerancy over the county Saturday, completing their labors of registering the voters of the county at Lanes Box No. 2. Early in March they will assemble at the court house for the purpose of verifying the lists and transferring same on the books of record. At this time there will be no one registered. No other registrations of voters will be made again until a date to be announced by the registrars next year. The books are sealed insofar as it applies to the registering of any voter the present year, the appointments having been completed for the year. Those who failed to register neglected to avail themselves of the opportunity offered to become voters the present year.

### WHERE THERE IS PEACE

(International News Service) RICHMOND, Ohio, Feb. 24.—While the crime wave rolls by this little Jefferson town sits high and dry. Salem township, in which this hamlet is situated, is entitled to three justices of the peace. It seldom elects more than one, however. S. P. Pyle is the incumbent. His last civil case was heard April 15, 1920, and later had a criminal case on abandonment.

## MINERAL RESOURCES OF VALLEY SHOWN

Interest in the Tennessee Valley Industrial Exposition continues unabated. Visitors from all sections have availed themselves of the opportunity of paying the Twin Cities a visit and all were complimentary in the remarks made upon the effort of the exposition managers.

Thursday night brought out a large crowd that seemed to thoroughly enjoy all they saw. The screen pictures are proving very popular indeed, and not among the least enjoyable sights of the enterprise are the many and well arranged booths of the local merchants, these being filled with the latest fabrics in wearing apparel, many of the booths displaying manufactured at home articles. It is proving an interesting as well as instructive enterprise.

One thing that interests visitors as well as those who reside here is the large display of natural resources which were obtained at different parts of the county. Many knew that the county contained coal, but few knew that silica, paint clays, marble or a fine quality of other valuable resources were so close at hand.

The advertising the Twin Cities will get from the displays, coupled with the information of this section and district which will be carried to different parts of the county, will well repay the effort and expense incurred in staging the exposition.

Opportunity lies at our door. This enterprise is another step in the direction of development, that is sure to follow the bringing together in this object lesson of the natural advantages offered manufacturers here.

Lunch at the stand at the auto show. All profits go for sweet charity sake. Coffee and sandwiches and other good things are served by the good women in charge.

Visit the automobile show, where beautiful machines are on exhibition. You will enjoy the splendid music and artistic decorations.

### Celebrating Derby Night.

On Derby night the waiters in one of the fashionable restaurants in London are dressed as jockeys, and the head waiter as a bookmaker.

## WORRIED HUSBANDS—READ THIS

Gude's Pepto-Mangan Is The Best Tonic For Nervous, Tired-Out Wives

If your wife "all tired out" and cross and irritable much of the time? Do the children "bother her to death" every day, and do the ordinary household tasks that she formerly performed with ease seem now to overtax her? In other words, do you often come home to a house of trouble instead of a house of joy and happiness?

If your answer is "yes" to these pointed questions, don't blame your wife until she has taken Gude's Pepto-Mangan with her meals for a few weeks. She is simply run-down and nervous and needs the kind of iron that she will get in Gude's Pepto-Mangan to give her more vitality and strength. For thirty years doctors have recommended Gude's Pepto-Mangan as a first class building-up tonic. Sold by your druggist in both liquid and tablet forms.—Advertisement.

## MABEL NORMAND IS NOW VERY ILL

LOS ANGELES, Feb. 24.—The condition of Mabel Normand, ill from influenza, aggravated by her nervous breakdown following the murder of William Desmond Taylor, was described as grave and critical by her physicians today. Instead of showing improvement it was stated Miss Normand lost strength during the night.

## Candidates Feel Pulse Of Public

Most of the announced candidates and prospective ones in the coming primary election to be held in August are carrying on what might be now termed, a feeling out process. Many of them are visiting different sections of the county interviewing the voters in the effort to arrive at some conclusion.

In a short time the political campaign will be in full swing in the county, and to use an oft-repeated phrase, the woods will soon be full of them. They at all times prove to be one of the most optimistic bunch of fellows to be found anywhere.

## Requires 30 Days To Check Up List

The work of checking up and purging the poll lists of the county is on at the court house, and will require about 30 days to complete it. The list is being gotten ready for publication, perhaps in April. It is a big, laborious task, calling for the exercise of both patience and efficient work. Upon the proper fulfillment of the duty will the franchise be safe guarded those who are to participate in the coming elections.

### COMPLAINTS MADE

MONTGOMERY, Ala., Feb. 24.—(Special)—Many complaints of short weights in the packing of oats now sold on the market in Alabama have been received by the state bureau of food, feed and drugs during the past few days. J. M. Moore, supervisor of the bureau, today announced the seizure of one-half ton oats in Birmingham because of short weight. He requested any persons who have found short weights to advise the bureau in order that proceedings may be started against those responsible.

### THE INDEPENDENT WOMAN

Is one of the brightest jewels which adorn our modern, economic system. But too often this independence is gained at the cost of health, and the wage-earning woman struggles through her duties, a prey to nervousness, backache and despondency. Does not her independence then become more of a burden than a joy? Lydia E. Pinkham's Vegetable Compound has helped many such women to regain their zest in life, and will help any more.—Advertisement.

## Tonight EXPOSITION

Two hours of movies. Exhibit demonstrations. Music over wireless telephone from Pittsburgh. Special orchestra music. See 100-foot long oil painting showing relation of Albany-Decatur to Muscle Shoals, in north room. 10 CENTS ONLY. adv.

### Improvement Always Mutual.

No improvement that takes place in either of the sexes, can be confined to itself; each is a universal mirror to each; and the respective refinement of the one will be in reciprocal proportion to the polish of the other.

### PAST DUE

Garbage and trash fees past due. All persons are urged to call at city hall and pay same. Help keep your city clean. E. C. PAYNE, Mayor. H. Hartung, Clerk. adv. f24-1f
